

I am writing on behalf of K-Love one of your Fm translator services. They are the only contemporary Christian station in our area that plays lots of music. I can leave the K-Love station on and not worry about what is being played in the presence of my toddler. Many stay at home moms listen to K-love in our area. If you were to take this away you would be depriving many little ones of clean music that is considered art and very beneficial to their development. K-Love is calming and very stress relieving. I love K-love and can't imagine life without them.
